

EcPublish - for Publishing Houses

Digital Highway's EcPublish is a web application exclusively developed for publishing houses. Dealers network module provides dealers to view all their financial and goods (books) transactions that included archived invoices, purchased/returned books, payment made, discounts availed and more.

As it is a web application publishing house admin/s, suppliers and dealers can access relevant data from anywhere, even on their mobiles. Generating invoices, preparing 'credit notes' can be done from anywhere on the fly. Embedded payment gateway allows dealers to pay online from anywhere and at anytime.

SMS gateway module allows the publisher to send auto sms alerts. View: <http://goodnewspublicities.in/>
